EVOLUTION™ AIR PURIFIER | DGAPA LIKE PUTTING AN AIR PURIFIER IN EVERY ROOM

Compact enough to fit most tight furnace/fan coil installations, this whole-home air purifier solution cleans the air flowing through your system. It silently traps 95% of particles. And, with Captures & Kills® technology, it inactivates select airborne pathogens, including the coronavirus captured by the MERV 15 filter.

FEATURES & BENEFITS

- Patented Captures & Kills® technology
- Long-lasting MERV15 filter
- Captures 95% of particles
- Inactivates 99% of select virus and bacteria, including: human influenza, common cold surrogate, streptococcus pyrogenes and coronavirus
- Narrow cabinet design for easier installation in tight spaces
- Helps protect heating and cooling equipment
- 10-year parts limited warranty upon timely registration (excludes filter replacements)

SPECIFICATIONS

PERFORMANCE

- Efficiency: MERV15 filtration captures 95% of particles
- Rated airflow: 1620: 1200 cu/ft/min; 1625: 1400 cu/ft/min; 2020: 1400 cu/ft/min; 2025: 1750 cu/ft/min; 2420: 1750 cu/ft/min
- Pressure drop: Creates minimal airflow resistance

TECHNOLOGY

- Filtration: Patented Captures & Kills® technology
- Compatibility: Can be fitted to operate in line with nearly any brand ducted system. Patented TrueSense™ dirty filter detection available with Evolution control

INSTALLATION

- Installation: For use with fan coils in upflow, downflow or horizontal positions
- Electrical: 115V, 208 –230V

AESTHETICS

Cabinet: Heavy-gauge, epoxy coated steel

Dimensions: Furnace/fan coil sizes: 1620: 18.5"H x 7.25"W x 24.75"D; 1625: 18.5"H x 7.25"W x 27.75"D; 2020: 22.25"H x 7.25"W x 24.75"D; 2025: 22.25"H x 7.25"W x 27.75"D; 2420: 25.75"H x 7.25"W x 24.75"D

EVOLUTION® RETURN AIR PURIFIER | RGAP

Return air purifier that uses Captures & Kills® technology to trap particles and inactivate them with an electrical charge.

[LEARN MORE](#)

EZ FLEX EXPANDABLE AIR FILTER WITH CABINET | EZXCAB

Today's homes are more energy-efficient than ever—sealed tighter and better insulated to keep heated or cooled air on the inside. The unfortunate side effect is that these same homes also do a better job retaining dust, dirt, pollen and more, trapping them inside to circulate and recirculate throughout your living spaces. These particles settle on furnishings, pollute the indoor air and rob your comfort system of efficiency by restricting airflow and making it work a little harder.

PRODUCT HIGHLIGHTS

- Can be used in upflow, downflow and horizontal applications
- Sturdy 20-gauge powder coat painted cabinet that can withstand the weight of a 400 lb (181 kg) furnace
- Rated at MERV 10 with a MERV 13 filter replacement available
- Equipped with a month indicator to remind the homeowner when to change the filter
- High dust holding capacity increases the time between filter changes
- 10-year limited warranty on cabinet

LEGACY™ LINE MECHANICAL AIR CLEANER | FNCCAB

The Legacy Line Mechanical Air Cleaner can protect and improve heating and cooling system performance and is available with either a MERV 8, MERV 11 or MERV 13 air filter. Cleaning the air in your home has never been simpler thanks to the easy to remove filter cabinet door.

FEATURES & BENEFITS

- Available with either a MERV8, MERV11 or MERV13 air filter
- MERV13 model effectively clearing the air of more than 90% of airborne particles as small as 1.0 micron in size
- Helps protect heating and cooling equipment
- Deep pleated filters hold more dust for fewer filter changes
- Easy to replace filters; see owners manual for replacement schedule
- 10-year parts limited warranty on cabinet upon timely registration

SPECIFICATIONS

PERFORMANCE

- Efficiency: MERV13 model filtration captures more than 90% of airborne particles as small as 3.0 microns in size
- Rated airflow: See table below
- Pressure drop: Creates minimal airflow resistance

INSTALLATION

- Installation: For use with fan coils in upflow, downflow or horizontal positions

AESTHETICS

- Cabinet: Steel cabinet in taupe color to match Bryant furnaces and fan coils

ULTRAVIOLET LIGHT

[Click for more info on Ultraviolet Lights](#)

PREFERRED™ SERIES ULTRAVIOLET GERMICIDAL UV LIGHT | UVLCC1LP

The indoor coil is part of what cools your home, but it and its drain pan can also be a favorite hangout of mold and bacteria. Growth of these organisms can affect efficiency and reduce airflow. They can even become airborne.

UV lamps from Carrier are designed to kill the mold and bacteria that can grow in the moist environment of your indoor coils to help keep your system efficient and clean air flowing.

FEATURES & BENEFITS

- Prohibits bacteria and mold growth on the surface of your indoor coil
- Improves air quality of home
- Silent operation
- Enhances air flow
- Minimizes build-up on coils
- Helps to improve system efficiency
- 5 year limited warranty, 90-day limited warranty for lamps

SPECIFICATIONS

PERFORMANCE

- **Warranty:** 90-day limited on lamp/ballast assembly; 5-year limited on base and power cord
- **Average Power Consumption:** 23 Watts
- **Maximum Amperage Draw:** 0.6 Amps

TECHNOLOGY

- **Average Lamp Life:** 1 year
- **Lamp Length:** 19"
- **Average Power Consumption:** 53 Watts
- **Unit Power Cord Included:** 6' cord

**To the original owner, when product is used in an owner-occupied residence, a 5-year parts limited warranty. See warranty certificate for complete details.*

Viruses & Bacteria

Intense UV light is designed to kill bacteria and mold growing on and around the indoor coil.

Whole-Home Solution

Installed near your indoor evaporator coil to help minimize microbial build-up and help prevent harmful particles from becoming airborne as air flows across those coils.

Warranty

10-year parts limited warranty upon timely registration and a 90-day limited warranty for bulbs.¹

PREFERRED™ CARBON AIR PURIFIER WITH UV

The Carbon Air Purifier with UV helps maintain a healthier home through air purification targeting the reduction of unwanted odors, volatile organic compounds, and common household gases from indoor air. It aids in the reduction of microorganism, e.g., mold, fungi, bacteria and viruses, growth on the evaporative coil, and release into recirculated indoor air.

HUMIDIFIERS

[Click for more info on Humidifiers](#)

PREFERRED™ SERIES STEAM HUMIDIFIER | HUMCRSTM ENJOY THE AIR YOU BREATHE.

A properly humidified home can help you breathe more comfortably with less dryness, save on energy costs, reduce static electricity and even help protect your wood furniture.

If you have a larger home or want to ensure consistent levels of humidity for the comfort of your family and the care of your furnishings, this steam humidifier may be your best choice. It generates steam by energizing two electrodes. Current flowing between the electrodes causes water to turn to steam, which is delivered into the duct by a patented dispersion tube.

FEATURES

- Patented steam dispersion tube delivery for best moisture delivery
- Steam generation via electrodes
- Tolerant of a wide range of water conditions
- Highest capacity type best for larger homes
- Replaceable steam canister
- Front-facing, easy-access door
- Nearly silent operation
- A better choice for homes with heat pumps
- 10-year parts limited warranty upon timely registration

[BUY NOW](#)

Comfort Features

Ensuring the right amount of moisture inside your home can help make you feel more comfortable. In some cases, increasing humidity levels can allow you to reduce your temperature settings and save on your heating costs.

Water Vapor Output

Maintaining the proper humidity levels depends on the size of your home and the climate you live in. Larger homes and those in arid climates may need a steam or fan-powered humidifier. Otherwise, a bypass humidifier may be sufficient.

HUMIDIFIERS

[Click for more info on Humidifiers](#)

PREFERRED™ SERIES SMALL BYPASS HUMIDIFIER | HUMCRSBP

ENJOY THE AIR YOU BREATHE.

Perfect for smaller homes, this 12 gallon per day bypass humidifier adds moisture to dry, indoor air with an assist from your heating and cooling system's blower fan. As a result, you can enjoy relief from common dry-air discomforts such as static electricity, skin dryness, sore throats and dry sinuses.

[BUY NOW](#)

PREFERRED™ SERIES WATER-SAVER BYPASS HUMIDIFIER | HUMCRWBP

ENJOY THE AIR YOU BREATHE.

A properly humidified home can help you breathe more comfortably with less dryness, save on energy costs, reduce static electricity and even help protect your wood furniture.

The Bryant® Preferred series bypass humidifier uses less electricity than fan-powered humidifiers by letting your furnace blower supply the air movement to drive moisture vapor into your ducts. Its unique, paper-panel design allows 100% water usage by wicking excess water into the water panel for use rather than allowing it to drain away.

[LEARN MORE](#)

PREFERRED™ SERIES LARGE FAN-POWERED HUMIDIFIER | HUMCRLFP

ENJOY THE AIR YOU BREATHE.

A properly humidified home can help you breathe more comfortably with less dryness, save on energy costs, reduce static electricity and even help protect your wood furniture.

The Bryant® Preferred series fan-powered humidifier blows moisture vapor directly into your ducts. This home humidifier type is the preferred solution for heat pump applications.

HUMIDIFIERS

[Click for more info on Humidifiers](#)

PREFERRED™ SERIES LARGE BYPASS HUMIDIFIER | HUMCRLBP

ENJOY THE AIR YOU BREATHE.

The Bryant® Preferred series bypass humidifier works as a value-add to your heating system, relying on the furnace or fan coil blower to deliver up to 17 gallons of moisture vapor throughout your home per day. It improves your whole-home comfort by reducing the effects of dry, indoor air, including static, sore throats, dry skin and sinuses.

DEHXXCDA1100 BUY NOW	Capacity = 100 pints / day	MERV 8 washable filter	Mid-size to large homes, crawlspaces, basements and attics	Energy Star most efficient 2024	Low GWP refrigerant	55 dBA (ducted) 59 dBA (unducted)	14" w x 15" h x 26" l

VENTILATORS

[Click for more info on Ventilators](#)

LEGACY™ ENERGY RECOVERY VENTILATOR | ERVCRNVA

SPACE-SAVING DESIGN LETS YOU BRING IN FRESH AIR WITHOUT OPENING WINDOWS

This model ventilator may be the best choice if you have a larger home and live in a hot, humid summer climate. Use it year round. Its special, enthalpic transfer media core will help infuse indoor heating or cooling energy into the incoming air so you can have a fresh indoor environment even on extreme days. It's a much better fresh air solution than opening a window and letting your energy dollars fly out.

An ERV, or energy recovery ventilator, is the right choice in the Midwest and southern states, where removing humidity from incoming air is vital to efficient, comfortable performance.

SPECIFICATIONS

EFFICIENCY

- Heating Recovery (ASE): Up to 76% at 32°F
- Cooling Recovery (TRE): Up to 55% at 95°F

PERFORMANCE

- Maximum Airflow: 130 cubic ft per minute
- Sound: Quiet operation

CONVENIENCES

- Filter Change: Easy access hinged door for filter cleaning and core cleaning

PREFERRED™ LARGE, HORIZONTAL ENERGY RECOVERY VENTILATOR | ERVXXLHB

This model ventilator may be the best choice if you have a larger home and live in a hot, humid summer climate. Use it year round. Its special, heat transfer media core will help infuse indoor heating or cooling energy into the incoming air so you can have a fresh indoor environment even on extreme days. It's a much better fresh air solution than opening a window and letting your energy dollars fly out.

Door color is slowly transitioning from tan to galvanized steel.

[LEARN MORE](#)

PREFERRED™ HORIZONTAL ENERGY RECOVERY VENTILATOR | ERVXXSHB

If you live in a hot, humid summer climate you may want to consider an ERV for its ability to bring fresh air in while keeping unwanted airborne moisture out. Designed for use all year long with a horizontal system, this unit's special, enthalpic transfer media core will help infuse indoor heating or cooling energy into the incoming fresh air. Even on extreme winter days, it's an energy-efficient alternative for refreshing comfort inside without opening your doors or windows.

[LEARN MORE](#)

PREFERRED™ VERTICAL ENERGY RECOVERY VENTILATOR | ERVXXSVB

Enjoy the refreshing effect of opening a window or door while preserving indoor comfort and system efficiency. This ERV offers the ability to remove moisture from incoming air during hot, steamy months and can supply a refreshing infusion of outdoor air all year long. It's the perfect addition to your modestly-sized home.

[LEARN MORE](#)

VENTILATORS

[Click for more info on Ventilators](#)

PREFERRED™ HORIZONTAL HEAT RECOVERY VENTILATOR | HRVXXSHB

KEEP HEATING EFFICIENTLY AND BRING IN FRESH AIR WITHOUT OPENING THE WINDOWS

This model delivers enhanced, refreshing ventilation for a smaller home with a horizontal indoor furnace or fan coil. Operating on the same principals as all of our HRVs, it transfers indoor heat energy to the incoming air to provide an infusion of freshness on extremely cold days. It's a great way to let the fresh air in without letting your energy dollars out.

CARBON MONOXIDE (CO) ALARM

[Click for more info on CO Alarms](#)

CARBON MONOXIDE (CO) ALARM | COALM

PROTECT YOUR HOME AGAINST DANGEROUS LEVELS OF CARBON MONOXIDE

Carbon monoxide is a colorless, tasteless, odorless and highly toxic gas. The Bryant CO alarm uses sophisticated sensor technology to detect and record levels of CO.

You can monitor the current CO level in your home on a large, easy-to-read digital display. When dangerous levels of CO are present, a loud, audible alarm alerts you and your family automatically.

SPECIFICATIONS

PERFORMANCE

- **Warranty:** 10-year limited
- **Response Times:** At 70 ppm, unit must alarm within 60 – 240 minutes; At 150 ppm, unit must alarm within 10 – 50 minutes; At 400 ppm, unit must alarm within 4 – 15 minutes

TECHNOLOGY

- **Power Source:** 120 VAC
- **Audio Alarm:** 85 dB at 10 feet
- **LED Displays:** CO concentration in PPM
- **Temperature Range:** 40°F (4.4°C) to 100°F (37.8°C)

AESTHETICS

- **Size:** 6.0625" x 3.75" x 1.75"

[BUY NOW](#)

Model COALM

A Continuous CO Monitoring

The easy-to-read, continuous digital display allows you to monitor the level of CO in your home with updated information every 15 seconds.

B Built-In Safety Check

The test/reset button checks the unit's electronic circuitry and horn so you can be assured the unit is functioning properly. It also resets the unit during an alarm.

C Convenient Peak Level Tracking

With the simple push of a button, the carbon monoxide alarm will display the highest recorded CO level since the alarm was last reset or unplugged.

D Installation Versatility

The AC plug adapter is removable and corded to provide the ultimate installation flexibility – it can be wall-mounted, placed on a table top, or simply plugged directly into an available outlet. You can pick the best location to maximize the effectiveness of the alarm.

E Uninterrupted Protection

The rechargeable lithium ion battery helps the carbon monoxide alarm provide uninterrupted protection, even during a power outage. (No need to replace batteries once a year.)
